

Babysitting Policy

At Saplings Pre-School, we place safeguarding and any child protection concerns as a high priority. To ensure we can keep your children safe, and to also protect the staff who work at Saplings Pre-School we are now implementing this policy.

We recognise that the staff here are familiar to yourselves and your children, and may seem like an obvious choice for a babysitter for your child. Our staff are not permitted to take on any babysitting work for any of the families who access this preschool.

We therefore request that parents do not ask our staff to babysit for them. This is to protect your children and also ensure that the staff are protected.

If you would like some support to find a babysitter, then please discuss this with the Play Leader, and we will help point you in the direction of places to discover babysitters and what you need to be looking for.
